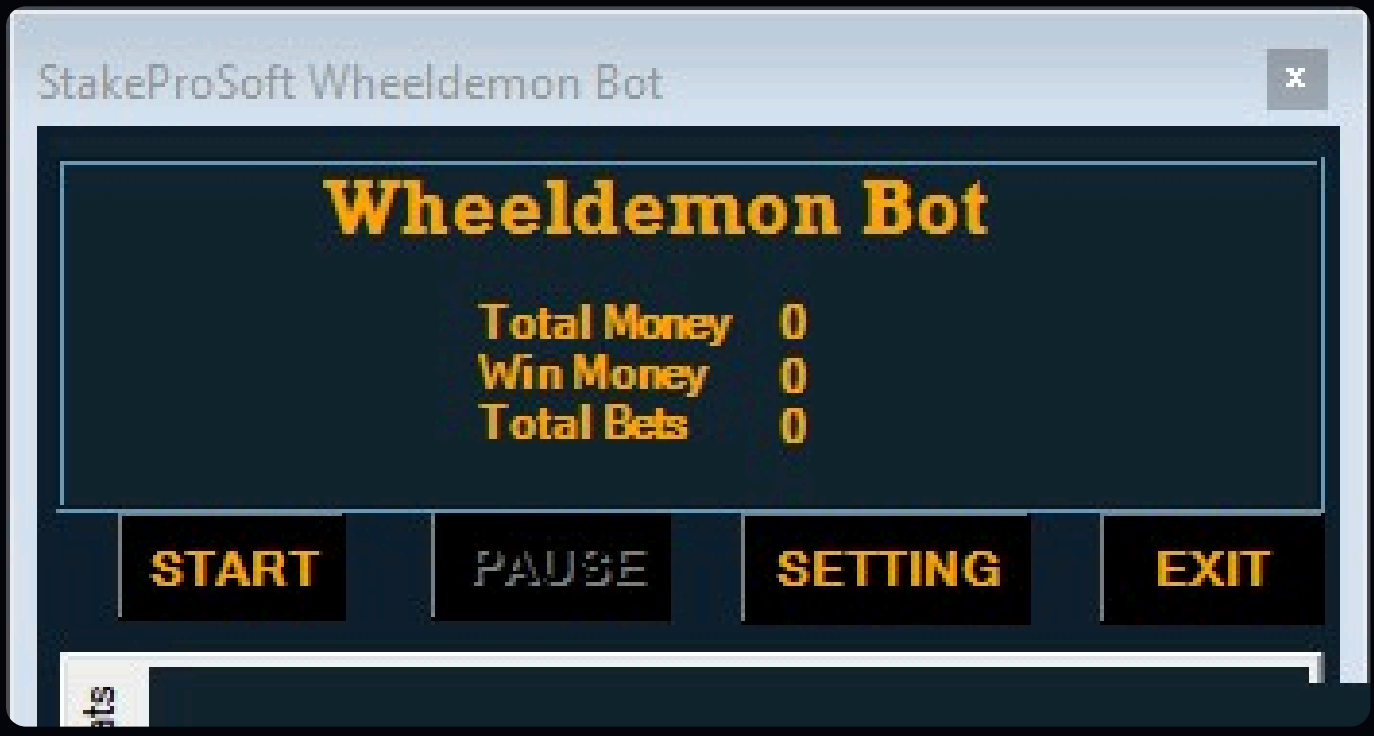
WheelDemon Stake Roulette Bot 2027

WheelDemon: hands-free roulette sessions



Wheel Daemon 8.0 picks the fields and stake. WheelDemon clicks them on Stake for you — on your PC or a VPS.

18+ · Gamble responsibly · No bot guarantees profit

1. How the game works

> Roulette is a game of independent spins with a built-in house edge. Predictor tools organise fields and stakes by method; they don’t remove the edge.

> What automation removes is the grind: entering numbers, reading suggestions and clicking bets for hours.

2. Bankroll checklist

- Learn the three forecast methods before going live
- Start low and set a daily win target
- Run on a stable PC or VNC VPS with Windows scaling at 100%
- Don’t move the mouse while the clicker works
- Only play with money you can afford to lose
- Write your limits down before the session starts

> 🎡 You set the rules in the predictor once — WheelDemon does the clicking, so you don’t need to sit at the machine.

3. What the bot automates

- Connects to the Wheel Daemon 8.0 predictor (English manual included)
- Three forecast methods: LINEAR, NONLINEAR and ADAPTIVE
- Robot clicks the suggested bets on Stake for you
- Runs on a Windows PC or a VNC VPS

4. Settings starter list

☐ Base bet sized for a long losing streak
☐ Progression chosen and capped
☐ Stop-loss set
☐ Take-profit / daily win % set
☐ Tested with the smallest stakes first
☐ Review after the session, not during
