Stake Variator Pro 2027

Variator Pro: strategy first, clicks second

VARIATOR PRO studies your numbers and suggests fields and stakes. Our robot places them on Stake.

See the bot **Browse the shop**

18+ · Gamble responsibly · No bot guarantees profit

1. How the game works

Martingale doubles after each loss and can explode a bankroll fast. Variator works differently: a predictor program studies the numbers and suggests fields and a stake.

It shines when you already understand Variator templates — then the robot places bets for you while you step away. Roulette still carries a house edge.

2. Bankroll checklist

- Save and load templates you have tested
- Always close predictor settings before starting
- Use TESTBANK virtual balance to learn your template
- Set a daily win target and a wallet stop
- Only play with money you can afford to lose
- Write your limits down before the session starts

⚙️ Variator is a strategy tool, not a blind progression. You bring the template — the robot brings the patience.

3. What the bot automates

- Roulette VARIATOR PRO 1.1 predictor with lifetime licence
- Chrome clicker via Selenium with cookie auto-login
- Reads the predictor window with OCR and places the bets
- Full Roulette_Settings panel, template save/load

4. Settings starter list

☐ Base bet sized for a long losing streak
☐ Progression chosen and capped
☐ Stop-loss set
☐ Take-profit / daily win % set
☐ Tested with the smallest stakes first
☐ Review after the session, not during
